Gear, Budget & Payback Planner

The site's nine complete builds, what you choose, and what riding instead of driving saved

Rider _____ **Period** _____

Two halves. The top lists the site's nine complete builds (commuter, kids electric and skatepark, each at three budgets), priced on scootermatch.com/kit/scooter-rider-skills-safety-and-commute-planner/gear/ with the same data as the site's /setups pages, so totals always match. The bottom is a payback tracker for commuters. For example, results vary: on the site's commute calculator defaults, a day riding instead of driving 4 miles each way saves about $1.54 before parking. That is not a promise; it is a place to write down what your own trips actually saved.

The nine builds

Build	Lines	Total today (from the guide)	Chosen?
Commuter, beginner	7		
Commuter, intermediate	10		
Commuter, expert	10		
Kids electric, beginner	8		
Kids electric, intermediate	8		
Kids electric, expert	8		
Skatepark, beginner	7		
Skatepark, intermediate	8		
Skatepark, expert	9		

Every build includes a helmet line; the site will not publish a build without one.

Your list

Item	Why now (which week or route needs it)	Price today	Bought?

Payback tracker (commuters)

One row per week of riding instead of driving or taking transit.

Week	Scooter trips	Miles	Driving or fares avoided ($)	Parking avoided ($)	Scooter cost at 3.4 cents a mile ($)

The anchor scooters

Real listings from the site's own catalog: the scooter at the heart of each commuter build.

- **VOLPAM 350W electric scooter**: The beginner commuter build's scooter.
- **Segway Ninebot MAX G30LP**: The intermediate commuter build's scooter.
- **Segway Ninebot MAX G2**: The expert commuter build's scooter.

Current prices and our latest picks for each item: **scootermatch.com/kit/scooter-rider-skills-safety-and-commute-planner/gear/**

Researched guidance, not professional advice. Wear a certified helmet every ride. Scooter laws differ by state and city: check yours.
